1. Unfold the bed frame while on its side until the length of the frame is open. Unfold the legs and align the diagonal bracing bracket holes with the threaded hole on the leg. Insert the locking knob as shown in figure 1. Repeat for remaining locations (six total). Place bed frame face up.

2. If you have a Structures bed frame that is Full size or larger, use the included brace to secure the adjacent frames together as shown in figure 2.

3. To fold up the bed frame, remove the locking knobs on each leg (six total) see figure 3. Fold up the diagonal bracing brackets to align with the bed frame and fold in the legs.

Failure to follow these warnings and assembly instructions could result in serious injury or death. Read all instructions before assembling bed frame. Keep the assembly instructions for future use. Before each usage or assembly, inspect bed frame for damaged hardware, loose joints, missing parts or sharp edges. DO NOT use the bed frame if any parts are missing or broken. Contact the manufacturer for replacement parts and instructional literature if needed. DO NOT substitute parts. Check fasteners and rivets periodically for tightness and positioning.
